

With the event of Sinclair Broadcasting taking over America's airwaves with a program that obviously does not fit the description 'non-partisan', I find that what I learned at the University of MN Journalism department (stated above) is not at all the case.

This is an outrage. I, along with many, demand that Sinclair be required to either take your laws seriously, by either removing their program intended to be aired 'Stolen Honor' or by allowing equal time for the DFL/John Kerry party to air it's own partisan program.

Thank you very much.
